Methodology

Public school rankings were determined by **Children at Risk**, which has compiled an annual list of top Texas schools for 11 years. Children at Risk uses factors including STAAR test scores, SAT/ACT participation rates and scores, AP/IB participation rates and scores, and a growth index tracking improvement over time on standardized test scores. Considering these factors, Children at Risk assigns each public school a letter grade ranging from A+ to F. These schools on this list represent those with an A- or above letter grade.
